Technical specification:

- Corrosion resistant end caps and support cylinder
- Filter media: Available in microglass (A) and wire mesh (M)
- Micron ratings: 1, 3, 6, 10, 16, 25µ in microglass; 25, 60, 90µ in wire mesh
- Collapse rating: Δp 20 Bar
- Seals: A- NBR; V- FPM
- Oil flow from exterior to interior
- Filter elements suitable for the LMP 210 series pressure filters
